HYP-VG4-EMS

Designed for the Aerospace and Automotive industries, the HYP-EMS-VG4 was conceived to offer an economical yet performance based option for engineers.

Following immense success, the VG4 is now regarded as a staple option for all machine tool carousels. With Variable Helix geometry to suppress vibration and strong TiSin coating for extra wear resistance, the HYP-VG4-EMS offers a versatile option across all material groups!

Now on special offer the VG4 Kit has been introduced. Offering sizes 6,8,10,12 and 16mm in a compact kit, perfect for a wide range of applications and materials.

Usable in:

EDP	Description	Dia (mm)	Rad (mm)	OAL (mm)	Cut Length (mm)	Reach (mm)	Shank Dia (mm)
501-2362	6.00mm HYP-VG4-EMS	6	0	58	15	20	6
501-3150	8.00mm HYP-VG4-EMS	8	0	64	20	25	8
501-3937	10.00mm HYP-VG4-EMS	10	0	73	25	30	10
